### BRB clears Hawks for Iberian landing

Madrid-based producer/distributor BRB has acquired Spanish and Portuguese distribution rights to Storm Hawks, the 52x30' animated action-comedy adventure series from Canada's Nerd Corps. The Spanish company will now manage the TV, DVD and licensing rights for the 3D boys animation series for both territories.

"We were looking for the best way to ensure the property launched strongly into both Spain and Portugal," said Nerd Corps' so-called El Presidente Ken Faier. "BRB has shown a deep and sincere passion for Storm Hawks, which was a big part of their appeal for us."

Aimed at the 6-11 crowd, Storm Hawks launches this year in several territories including YTV in Canada; Cartoon Network in the US, UK, France and Latin America; RTL2 in Germany; as well as terrestrial broadcaster France 3 in France.

Canadian French-language broadcaster VRAK has also acquired Storm Hawks, while MGM Worldwide Television Distribution has picked up the rights to distribute it in all territories excluding North America and Western Europe.
